

Hydrometallurgists / Metallurgists

(Project Managers)

(File Reference: HMET-2012)

We are currently searching for Hydrometallurgists, Metallurgists and Project Managers on behalf of a number of clients in the Mining and Consulting Engineering fields. A degree in Mineral Processing, Metallurgy, Materials, or Chemical Engineering is required. Experience in the Mining Industry or the Consulting Engineering field is required.

Candidates should have process experience in any one or more of the following: flotation, leaching, solvent extraction, or mineral processing. Knowledge of hydrometallurgical processing plants, particularly using pressure oxidation (POX), pressure acid leaching (PAL) and autoclaving technologies is highly desirable.

Other desirable experiences include the development of Process Flow Diagrams, Sizing Process Equipment, Pilot Plants and Commissioning. Ideally you are a Professional Engineer or eligible for Registration in your jurisdiction of residence.

Positions are available in Toronto, and across Ontario region as well Vancouver. Compensation includes a very competitive base salary, performance bonus, and comprehensive group benefit programs, as well as a significant opportunity to grow your career in successful, well established global businesses.

For further position details and consideration, highly qualified Candidates are invited to submit their resume information in confidence to (please quote the File Reference number above):
