

PROCESS ENGINEERS / PROJECT MANAGERS / EXECUTIVES

(File Reference: PEMP-2012)

We are currently searching for Process Engineers and Project Managers up to the VP-level, on behalf of a number of clients in the Mining and Consulting Engineering fields. A degree in Mineral Processing, Metallurgy, Materials, Chemical Engineering, Mechanical Engineering or Civil Engineering is required. Experience in the Mining Industry, Consulting Engineering and/or in large scale EPCM projects.

Candidates may have experience in project management, mining, infrastructure, mineral process plant design, pilot plants resource/reserve estimation, feasibility studies, multi-technical services and construction. Technical experience in base metals, precious metals or rare earths are all considered. Candidates should have experience managing teams and process projects in any one or more of the following: flotation, leaching, solvent extraction, or mineral processing.

Other desirable experiences include the development of Process Flow Diagrams/ Piping, Mechanical and Instrumentation Diagrams; sizing Process Equipment and Plant/Site Engineering & Commissioning. Ideally you are a Professional Engineer or eligible for Registration in your jurisdiction of residence.

Positions are available in Toronto, and across Ontario region as well Vancouver.

Compensation includes a very competitive base salary, performance bonus, and comprehensive group benefit programs

For confidential consideration, highly qualified Candidates are invited to submit their resume information in confidence to (please quote the File Reference number above):
